

PHENOM 100

Made by one of the largest aircraft manufacturers in the world, Brazil-based Embraer, the Phenom 100 is a very light twin engine jet. Able to accommodate four passengers and a single pilot, this jet is ideal for individuals and small companies.

Being a very light jet, the Phenom 100 offers much of the same capabilities and characteristics that are specific to a class higher, but still at a fraction of the cost. Paired with a beautiful interior, this aircraft provides a relaxing and quiet ride.

Based in Aspen, Colorado, this aircraft is perfect for short-field performance, offering the capability of flying to more destinations than larger aircraft.
